

Poster Information for students funded by INBRE

Session: Thursday, Aug. 3rd, 2017 from 2:50 – 4:30 p.m. in the SUB 233/235

IMPORTANT NOTE! INBRE Requests Digital Copies of your poster for our records:

- **INBRE Student Researchers:** Please e-mail a .PDF of your completed poster to Barb Bunge (bbunge@montana.edu) no later than **Aug 7th**
- **Public Health Interns:** Please e-mail your completed poster .PDF to Bill Stadwiser (william.stadwiser@montana.edu) no later than **Aug 7th**

POSTER SIZE:

Typically, the poster size should be approximately 42" x 46". The poster paper is 42" on one side and the poster stands are slightly less than 48" wide, so one of your dimensions should be no greater than 42". Note that posters printed at MSU's Chemistry Dept. may be 34" x 44".

POSTER TEMPLATES & LOGOS:

- If you wish to use one of INBRE's PowerPoint templates, they are available at: http://www.inbre.montana.edu/student-programs/poster_resources.html
Additional school logos can be found at: the bottom of the INBRE Poster Resources webpage

ACKNOWLEDGEMENT, CITING NIH:

Remember to include this acknowledgement on your poster: *"Research reported in this publication was supported by the National Institute of General Medical Sciences of the National Institutes of Health under Award Number P20GM103474. The content is solely the responsibility of the authors and does not necessarily represent the official views of the National Institutes of Health."*

PRINTING YOUR POSTER:

IMPORTANT – Do not wait until the last minute to take your poster to be printed!

For those living in Bozeman, print your **final/proof-read** file at one of these locations:

- 1) **Selby's** (Please note this is the most cost effective place to have your poster printed, so we would recommend taking it here.) **525 Professional Drive, Bozeman, MT 59718** Please tell Selby's staff that printing of your poster should be charged to "account #2224117 Montana INBRE at Montana State University". A bill will be sent directly to us for your poster, so you should not have to pay Selby's. The phone number is 587-0782, in case you have any questions about their printing capabilities.

2) University Printing, 12 Culbertson Hall

- Contact Barb Bunge at 994-7531 for payment information.
- Go to University Printing with your PowerPoint file. **Again, please do not wait until the last minute to do this.**

3) Chemistry/Biochemistry, Chemistry & Biochemistry Building

Call 994-5379 to set up a time to have your poster printed. Call in advance to obtain formatting instructions and to make certain that there is available time to print your poster. *Call Barb Bunge (at 994-7531) for the number for billing purposes.* You can select either flat or glossy paper and the poster size is 34" x 44".

POSTER SESSION:

Will be held on **Friday, Thursday, Aug. 3rd, 2017 from 3:00 – 4:30 p.m. in the SUB 233/235, with set-up beginning at 2:50 p.m.** Pushpins are provided onsite.

Students who are currently funded by INBRE to work in research labs at MSU are expected to present their work at this campus-wide event. You should feel free to bring friends, family, your mentor, lab personnel or anyone else who may be interested – the poster session is open to the public.

WHAT TO EXPECT:

Poster sessions are a fun and efficient way to present your research to a wide variety of people. Poster sessions are set up much like job fairs or farmers markets – presenters are assigned a stationary spot in a large room, and the audience circulates through looking for areas of interest.

Rather than addressing a big audience all at once, poster presenters typically only speak with a few people at a time. The tone of these interactions tends to be very conversational. Having a short “elevator speech” that summarizes your project and then being ready to engage in discussion with an educated, but perhaps uninformed audience member is a good way to prepare. After a few minutes, audience members typically move on to other posters and you will have an opportunity to begin a new conversation. Two hours may sound like a long time, but most students experience their session as going by very fast.
